## DISPLAY CABINETS for sale! – 01598 710215 Second hand and revived shop fitting furniture

Other important information...

### Delivery or collection

You are welcome to come and collect these from our workshop and Show room in the lovely area of Devon – why not make a holiday of it and stay for the weekend.

Or ...

We can arrange shipping with Pallet Force.

This cost will be from £160.00 + vat per pallet which is approx 1.2m x 1.2 x 2.1m high  
Cost will be agreed with you prior to shipping and will depend on the size of the individual display cabinet.

*All items are here ready to dispatch and should be with you within 2-5 working days.*

### Sold as seen

All the items here are either made by us in our Devon workshop as samples or might be surplus to requirement. Some are items that have been rescued and refurbished. Whatever their story; we will cover them with a standard 3 month warranty.

By agreeing to buy any of these items you are agreeing to buy then sold as seen. We will not let them leave us until we are happy with the condition. If there are any scratches in glass you will be advised prior. Each item is PAT tested before it leaves us if it has electric included.

### Taking delivery

Each crate will arrive on a truck with a tail lift, which will allow the crate to be wheeled off the truck onto the pavement or delivery bay you specify. You will require a screw driver to undo the crate and man power and possibly a trolley (depending on the size and weight) for moving the item to the required final position.

This will all need to be arranged by you, the purchaser. Watts Design cannot take any responsibility for damage which happens after it leaves our premises. We, watts Design will do our very best to ensure you item arrives in the very best condition possible.

### Fitting

Each item has been made to simple place into position. Some have adjustable feet for levelling and all lights are on its own plug to plug straight into you main supply. You may need to arrange an electrician to help with this if there is not electrical point where you want your new item positioned.

### Any other questions

If you are interested in any of the items you see here but would like to know more about them; please call us straight away on **01598 710215** or email us on **info@wattsdesign.co.uk**
